

The West Australian

West Australian Newspapers Limited

MEDIA RELEASE

The West Australian partners with The Constable Care Child Safety Foundation for their 25th anniversary.

The West Australian has partnered with Constable Care to increase the profile of child safety and develop the public's awareness of child safety issues and initiatives.

Together, *The West Australian* and Constable Care aim to facilitate positive change across communities resulting in safer environments for children living in WA.

Constable Care has been delivering a rhyming message about child safety in *The West Australian* every Wednesday and occasionally featuring in the ED! liftout which runs during the school term.

The West Australian has been a supporter of Constable Care's good work and the history of the relationship will be on display, along with the Constable Care's Lost Child Service, at this year's Perth Royal Show.

The Constable Care's Lost Child Service will provide family meeting points and lost child safety spots at prominent locations.

Parents will also be able to pick up a 'Constable Care Safety Sticker' for their children, where contact details can be recorded in case of an emergency.

The West Australian is proud to collaborate with Constable Care to mark their significant 25 year milestone.
