Seven and WIN agree to new broadcast deal

The Seven Network and WIN Network have reached a new content agreement which has seen Seven's channels return to the Riverland, Griffith and Mount Gambier via aerial transmission this afternoon.

Both Seven and WIN acknowledge the significant impact of free-to-air television in regional communities and the importance of providing news, sport, entertainment, and a voice to regional Australians.

We thank the people of the Riverland, Mount Gambier and Griffith communities for their patience while we worked through this matter.

Seven's programming resumed at 5pm AEST.
